Portal - Students,  
Online Application,  
Faculty / Staff

Seamless  
Integration

## Student Web portal

- Students can access the College/University portal for registration
- Students will have their login and view their information
- Self register for a Program/Course
- Students can request academic requests
- Make payments for the Program/Courses
- View/Download Transcripts

## Key Modules

- Financial Management
- Student Management
- Application Management
- Grading and Examination Management
- Faculty / Staff Management
- Hostel Management

## Automation with Workflow

- Electronic approval workflow for Student Applications
- All standard D365 BC workflows as Out of the Box features

- Integrates student billing and payments with student finance
- All student information is extended to ERP from web portal extension
- Manage student cycle from application to graduation.
- Students can raise requisitions through their Student Self Service Portal to Edufin SIS
- All financial related documents can be integrated to student portal
- Visiting faculties can be paid their remuneration automatically against their workload
- Management of Student Grading and Promotion
- Manage and view the attendance
- Payment Integration with bank and payment processors
- Students can book accommodations via Student portal

- **Student Admission** - When marking student as admitted automatically converts applicant to customer/student and generates student No. as per program set prefix
- **Billing Process** - Automatically auto bills the student as per settlement type set against the program when student completes registration and finance can trace the transaction entries with no human intervention/paperwork
- **Timetabling** - Student will automatically get timetable (exam/class) on their web portal extension on completion of course registration
- **Grading** - Student will automatically receive their results slips on web portal once released by their exam coordinators
- **Notifications** - Email notification triggers on documents such as Journals, Sales, Purchase and Student Registration
- **Online Hostel Booking** - Automatic hostel invoicing is integrated to ERP and student finance

## Enrolment

- Enrolment statistics
- Population by campus, by per-program, by per-program category

## Finance

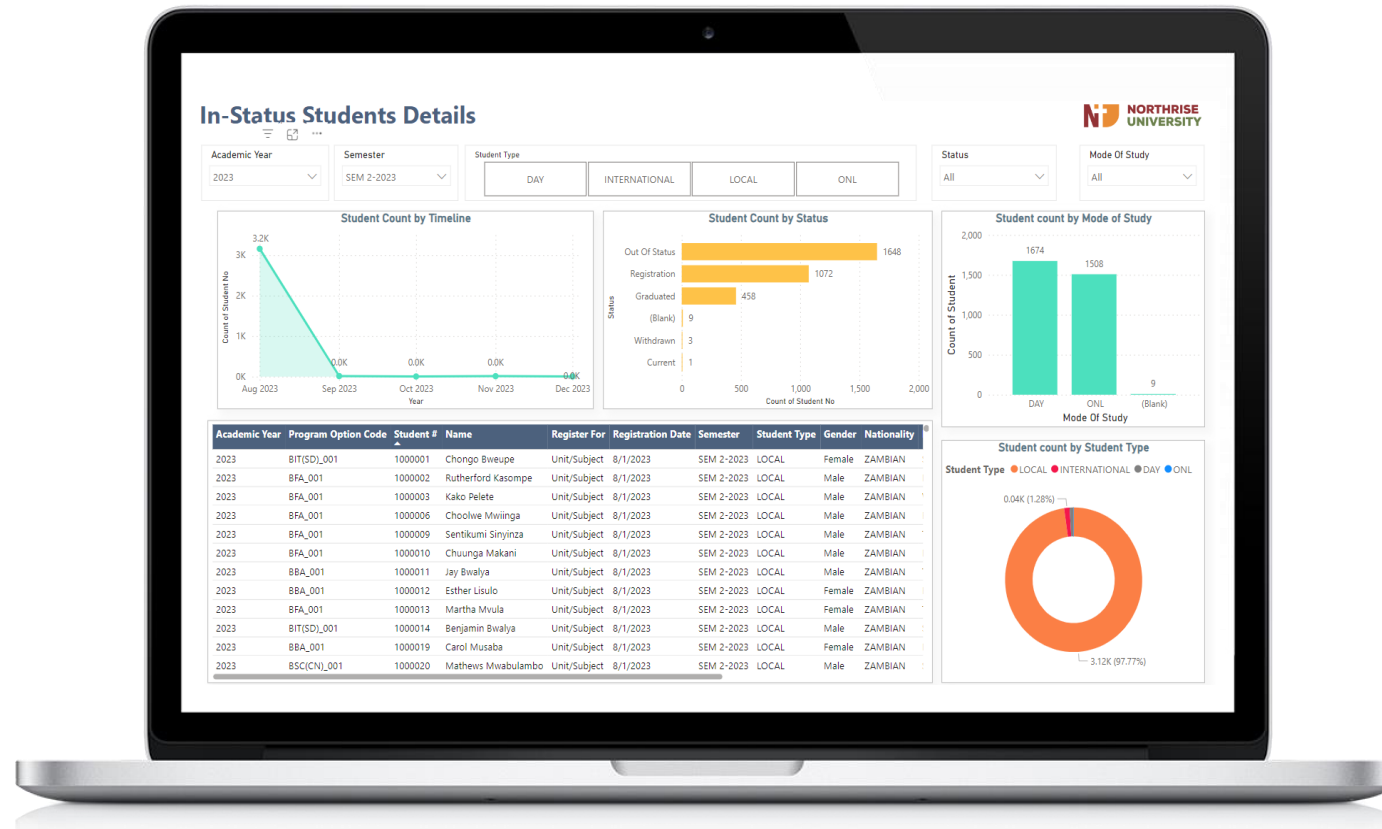

- Student Statement
- Disbursement Report
- Student Balances
- Student Receipts Summary
- Fee Structure Report
- Accommodation Summary

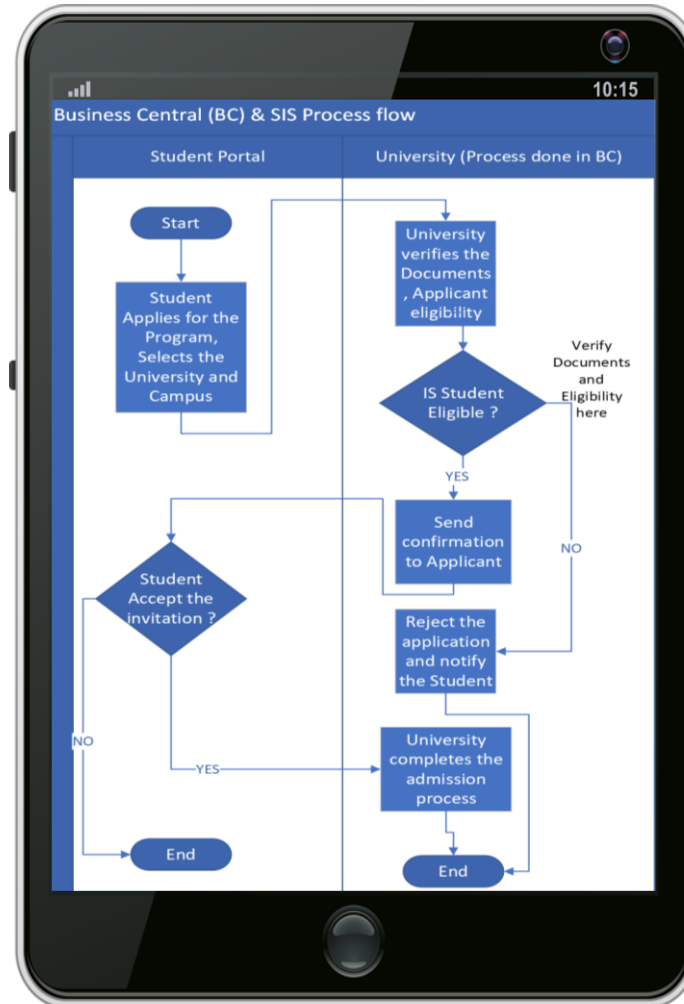

## Grading

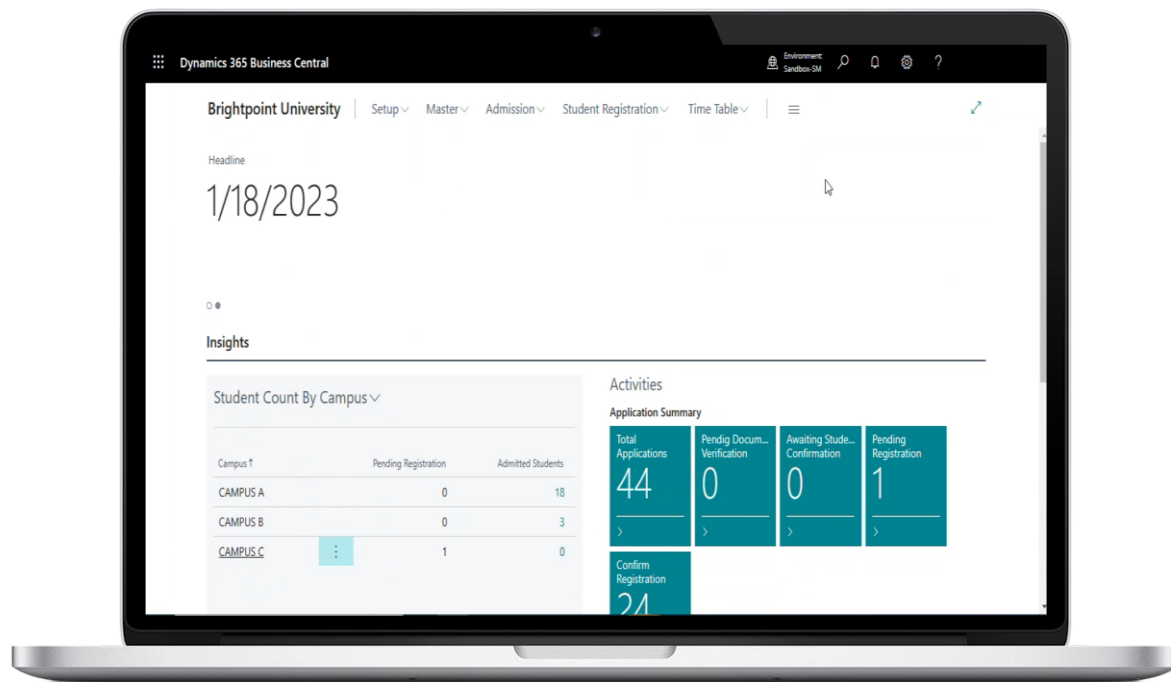

- Examination Cards
- Examination Attendance Summary
- Consolidated Marksheet
- Official Transcript
- Provisional Transcript
- Grade Summary

## Cash Receipt

## Student Statement

I must commend the remarkable effort of the Brightpoint team in delivering Edufin SIS with innovative design, development, and usability. Their dedication has been evident throughout the implementation process and beyond. The Brightpoint Infotech team has implemented Edufin SIS and Microsoft Dynamics 365 Business Central ERP system with excellence and provided exceptional post-go-live support. They took the time to understand our unique requirements, offering expert configuration and ongoing training to ensure a seamless transition.

From the very beginning, the team at Brightpoint Infotech impressed us with their expertise and professionalism. They took the time to understand our unique requirements and worked closely with us throughout the implementation process. Their proficiency in integrating Microsoft Dynamics 365 Business Central with our Student Information System (SIS). This integration has significantly streamlined our administrative tasks and data management, allowing us to focus more on providing a top-notch educational experience to our students.
