**Integrated | Flexible | Scalable**

Start with Dynamics 365 Finance & Supply chain management, then add more Microsoft business apps as you grow

- Dynamics 365 Sales
- Dynamics 365 Customer Service
- Dynamics 365 Field Service
- Dynamics 365 Project Service Automation
- Dynamics 365 Human Resources
- Power BI

**Automation | Efficiency | Control**

If you want a financial system that is familiar and integrates with the rest of your Microsoft technology, look no further

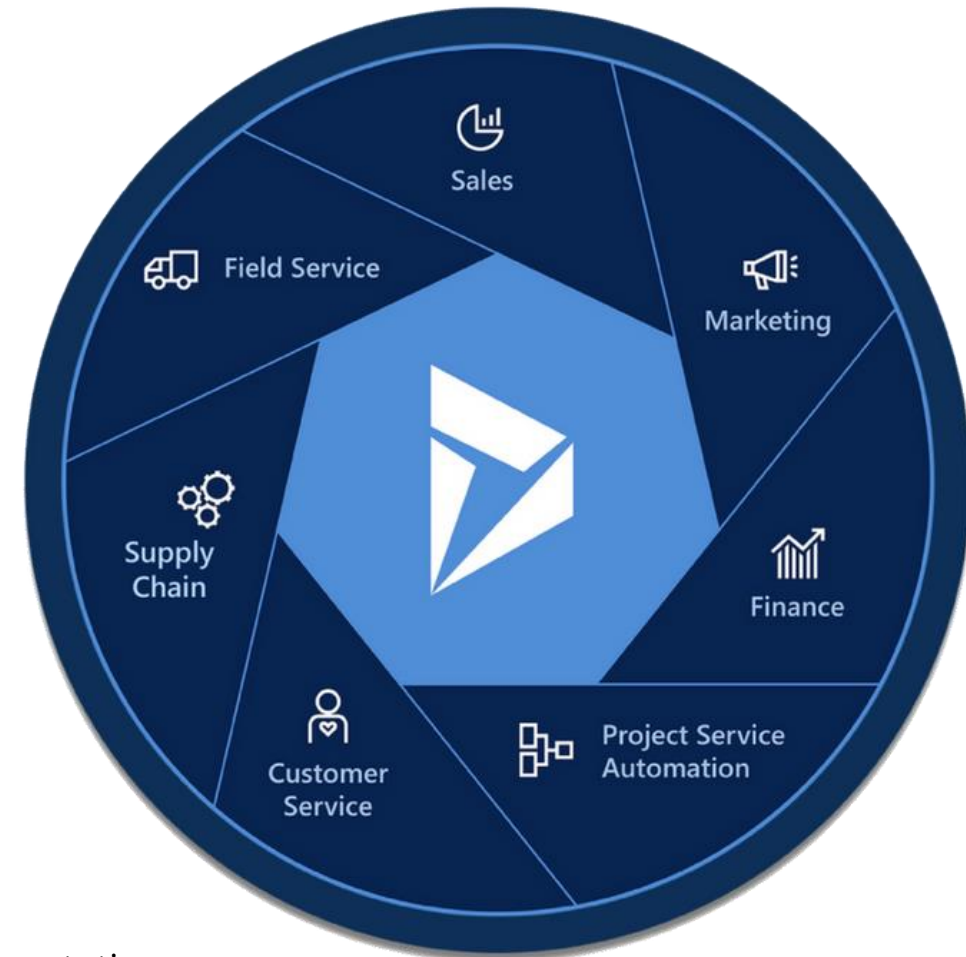

- Manage your finances: quote, invoice, make payments, and collect
- Easily see all the data you need to prepare financial statements and analyze company performance
- Manage your inventory, supply chain, projects, manufacturing, and more
- Automate tasks to increase productivity and unleash creativity across your enterprise
- Handle tax and compliance with confidence. Ideal for multi-currency, multi-country enterprises

**A Cloud-Based SaaS**

Dynamics 365 Finance & Supply chain management is a cloud-based, software-as-a-service (SaaS) ERP system. This cloud focus gives you

- Secure and efficient capabilities for remote work
- Semi-annual and quarterly updates
- More accessible mobile and web apps
- Monthly, per-user billing cycles that let you scale up and down easily
- Better integration with other Microsoft Azure cloud products
- Your choice of preferred data center region for hosting
- World-class hosting security and stability
- A larger share of Microsoft's future R&D
